

~~TOP SECRET~~

OKC-0636

Copy 5 of 5

TO : AFCEC-5  
Headquarters USAF

ATTENTION : Colonel Leo P. Geary

SUBJECT : Weather Support For CIA Projects

26 OCT 1960

1. Air Weather Service has called to my attention the fact that they have received no formal request for weather support from CIA, other than that originally requested for "CHALICE". While their Global Weather Central at Offutt Air Force Base has always responded wholeheartedly to all of our direct requests for weather forecasts and climatological studies, regardless of the project for which they were needed, the parent AFB Headquarters has been placed in the awkward position of being unable to account for the expenditure of funds and highly skilled talent devoted to CIA projects other than CHALICE.

2. In order to provide Air Weather Service with the necessary evidence to justify their budgetary allocation of funds and personnel to the support of CIA projects, and to clearly establish the priority and precedence of those projects in the eyes of all AFB personnel concerned with them, it is recommended that a formal request for meteorological support of the CIA activities listed below, be submitted to the Commander, Air Weather Service.

CIA activities for which Air Weather Service Support is required:

- A. Direct Staff Support to DFD Headquarters
- B. Project CHALICE
- C. Project CCHONA
- D. Project OSCART
- E. 
- F.
